

INDEX TO ARTICLES • 1965

DATA PROCESSING MAGAZINE / Volume 7

TITLES

- Accounting Computer Pitfalls**
V. Genzlinger
May, p. 38.
- Advanced Shared File System Extends Capabilities of Caltech Computing Center**
S. H. Caine, K. J. Hebert, G. D. McCann, and C. B. Ray
September, p. 24.
- ASA Standards for Computers and Information Processing**
P. B. Goodstat
October, p. 50.
- Automated Mailing System**
J. R. DeParis
November, p. 38.
- Automated Typing System**
J. R. DeParis
July, p. 44.
- Better Than Ever—The Second Ten Years**
J. R. DeParis
March, p. 54.
- Card Punching Still Prime as Computer Input**
J. R. DeParis
May, p. 40.
- Completely Automatic Hybrid Computer, A**
W. H. East
July, p. 30.
- Comprehensive Look at Magnetic Tape Rehabilitation, A**
E. P. Brandeis
October, p. 28.
- Computer Forms Design and the Printing Press**
E. Webster
December, p. 56.
- Computer Peripherals—A Checklist**
J. D. Fogarty
June, p. 50.
- Computer Planning and Society**
T. Victorisz
August, p. 15.
- Computers and Inductive Inference**
M. Pivar
June, p. 46.
- Controls for a Complex Business System**
A. J. Sullivan
December, p. 22.
- Controls for Data Processing**
J. E. Holzer
August, p. 28.
- Critical Path Method: It Paves the Way to Smoother Management**
A. Harary
April, p. 40.
- Data Communications**
J. D. Box
March, p. 20.
- Data Processing, Centralization**
D. Blumberg
July, p. 40.
- Desk Top Teleprinter**
J. R. DeParis
October, p. 48.
- Digital Computer Achieves Real Time Flight Simulation**
R. M. Douglas
April, p. 46.
- Drafting Future Computers**
G. E. Olson
January, p. 32.
- Driver License Recording**
E. Dahl
January, p. 34.
- EDP Equipment: Purchase, Trade-In, or Sell? An Analysis**
G. H. Heilborn
August, p. 44.
- Education and Training for ISR (Documentation)**
L. H. Hattery
March, p. 46.
- The Effect of IFIP on the International Information Processing Community**
I. Auerbach
January, p. 60.
- Electronic Reapportionment Mapping**
E. Forrest
July, p. 52.
- Experimental System Provides Flexibility and Continuity**
N. J. Mazzaresse
May, p. 68.
- Fastenings and Forms Runnability**
E. Webster
July, p. 21.
- Forms: An Industry Snapshot**
E. Webster
June, p. 28.
- Future Data Processing**
R. A. MacGowan
March, p. 18.
- Getting the Maximum Use Out of Your Printout**
E. Webster
February, p. 20.
- Global Economic Planning**
W. B. Gibson
July, p. 18.
- Growing Importance of Accounting Computers, The**
V. Genzlinger
April, p. 50.
- Hardware Selection**
V. Genzlinger
January, p. 27.
- Honeywell Series 200, A Mecca for EDP Programmers**
L. R. Bushor
April, p. 54.
- IBM System 360, Prognosis for Programmers**
L. R. Bushor
March, p. 58.
- Information Management Center**
V. Genzlinger
February, p. 22.
- Information Retrieval by Proper Name**
W. L. Hewes and K. H. Stowe
June, p. 18.
- Information Systems and the Planning Process**
D. Blumberg
May, p. 72.
- International Compiler Writing**
H. Bromberg
February, p. 66.
- In the Near Future, Computer Communications**
D. P. Yens
March, p. 20.
- Introducing the EAI 680**
J. R. DeParis
September, p. 38.
- Language Standardization**
H. Bromberg
January, p. 50.
- Line Printing**
E. Webster
April, p. 34.
- Management by Exception Through Information Processing Techniques**
B. W. Ziessow
October, p. 52.
- Management in Real Time**
S. C. Blumenthal
August, p. 18.
- Management in the EDP Installation**
N. E. Magnis
March, p. 48.
- Management Problems an Accounting Computer Can Solve**
V. Genzlinger
July, p. 46.
- Meaning of Recent Hardware Announcements, The**
L. R. Bushor
February, p. 58.
- Netherlands' Automatic Information Processing Research Centre, The**
L. H. Hattery
April, p. 32.
- New Source of Executive Talent—DP Personnel, A**
J. T. Simone
August, p. 5.
- On Line Real Time vs. Time Sharing**
V. Genzlinger
March, p. 40.
- Order in the Court of Mixed Notations**
F. E. Croxton and W. J. Wilson
August, p. 31.
- Organizing a Computer Service Center to Supply Employee Motivation**
K. W. Draeger
November, p. 28.
- Package Systems and the Automobile Dealer**
V. Genzlinger
August, p. 40.
- People Explosion Is Now in Process, A**
L. D. Barton
November, p. 19.
- People in EDP, The**
E. R. Cattaneo
November, p. 20.
- Printout Tips and Trends**
E. Webster
August, p. 34.
- Program Documentation**
V. V. Pravikoff
October, p. 44.
- Programmed Instruction . . . and the NCR Series 500**
J. R. DeParis
May, p. 37.
- Quantitative Break-Even Analysis**
R. S. Sloma
January, p. 20.
- Random Access**
J. R. DeParis
February, p. 30.
- Random Storage**
J. R. DeParis
January, p. 37.
- Real Meaning of Data Communications, The**
D. E. Smith
April, p. 16.
- Real Time Management Retrieval System, A**
P. G. Margaritis
July, p. 23.
- Replicate Your Printout**
E. Webster
September, p. 52.
- Role of Computers in Research, The**
H. H. Sun
June, p. 26.
- Science in the Age of Cyberculture**
A. M. Hilton and H. L. Hayward
March, p. 22.

May, p. 30.

State of the Art in Switzerland
A. P. Speiser
May, p. 32.

Strategic Planning
D. Blumberg
February, p. 62.

Surveys of Computer Language Use
M. Bromberg
April, p. 37.

Taming Terms Turmoil
E. Webster
May, p. 46.

Tele-Processing Terminals Offer User Wide Range of Applications Ability
H. M. Silveira
July, p. 36.

Time Sharing—A User's Perspective
M. E. Magnis
July, p. 28.

Time Sharing Seminar in Print
E. R. Cattaneo
September, p. 18.

Time Sharing—Some Comments and Predictions
D. Blumberg
September, p. 44.

Time Sharing—Some Problems, Potentialities, and Implications
S. C. Campbell
September, p. 30.

Time-Tedium Cost-Factors in COBOL Programming
J. Cremeans
April, p. 24.

Touch-Tone
W. P. Davenport
October, p. 36.

Toward a Theory of Program Design
L. Constantine
December, p. 18.

Trends in Analog Computation
V. Larowe
May, p. 80.

Univac +15
E. J. Haga
May, p. 42.

Univac 1050, Late Arrival of the Solid State Generation
J. R. DeParis
April, p. 56.

Using a Computer to Simulate a Computer
G. R. Trimble
October, p. 18.

Western Union's New Service Meets Expanding Data Communication Needs
G. S. Paul
January, p. 28.

What's in a Word, Part 4
A. M. Hilton
January, p. 46.

What's in a Word, Part 5
A. M. Hilton
February, p. 32.

What's in a Word, Part 6
A. M. Hilton
March, p. 60.

Years of Refinement
W. J. Thomas
March, p. 19.

Organizing A Computer Service
Center to Supply Employee
Motivation
K. W. Draeger
November, p. 28.

CENSUS

Data Processing Magazine's
Computer Census
February, p. 36.

COMPUTER USAGE

User Oriented Computer Systems:
Some Implications for Public
Administration
H. Isaacs
February, p. 16.

CYBERCULTURE

Science in the Age of Cyberculture
A. M. Hilton and
H. L. Hayward
March, p. 22.

What's In A Word, Part 4
A. M. Hilton
January, p. 46.

What's In A Word, Part 5
A. M. Hilton
February, p. 32.

What's In A Word, Part 6
A. M. Hilton
March, p. 60.

CYBERNETICS

Computers and Inductive Inference
M. Pivar
June, p. 46.

Drafting Future Computers
G. E. Olson
January, p. 32.

DATA COMMUNICATIONS

Data Communications
J. O. Box
March, p. 20.

Real Meaning of Data
Communications, The
D. E. Smith
April, p. 16.

Western Union's New Service
Meets Expanding Data
Communication Needs
G. S. Paul
January, p. 28.

DATA PROCESSING CENTERS

Netherlands' Automatic
Information Processing Research
Centre, The
L. H. Hattery
April, p. 32.

DATA PROCESSING FUTURES CONTEST

Data Communications
J. D. Box
March, p. 20.

Future Data Processing
R. A. MacGowan
March, p. 18.

In the Near Future, Computer
Communication
D. P. Yens
March, p. 20.

Man-Machine Interface, The
B. O. Scuprowicz
March, p. 21.

Next Three Years—Paperless
Communications, The
F. R. Sheldon
April, p. 20.

New Concept for Data
Communication Systems, A
C. M. Jansky
April, p. 21.

Years of Refinement
W. J. Thomas
March, p. 19.

DATA REDUCTION

Electronic Reapportionment
Mapping
E. Forrest
July, p. 52.

Research Laboratory for
Processing and Displaying
Satellite Data in Real Time, A
R. H. Spitzer and B. K. Kersey
January, p. 24.

EDUCATION

Univac +15
E. J. Haga
May, p. 42.

EQUIPMENT

Better Than Ever—The Second
Ten Years
J. R. DeParis
March, p. 54.

HARDWARE

Meaning of Recent Hardware
Announcements, The
L. R. Bushor
February, p. 58.

Information and Education
B. Rothery
October, p. 40.

Information Industry, The
B. Rothery
September, p. 46.

Movement of Information, The
B. Rothery
November, p. 54.

Technical Information Explosion
C. H. Robbins
July, p. 48.

Total Information System
B. Rothery
August, p. 32.

Varieties of Industrial Information
B. Rothery
December, p. 32.

INFORMATION

RETRIEVAL

Driver License Recording
E. Dahl
January, p. 34.

Education and Training for ISR
(Documentation),
L. H. Hattery
March, p. 46.

Information Retrieval by Proper
Name
W. L. Hewes and K. H. Stow
June, p. 18.

Order in the Court of Mixed
Notations
F. E. Croxton and W. J. Wilson
August, p. 31.

LANGUAGES

Language Standardization
H. Bromberg
January, p. 50.

International Compiler Writing
H. Bromberg
February, p. 66.

Surveys of Computer Language Use
H. Bromberg
April, p. 37.

LITERATURE

Computers and Literature
W. B. Kehl
August, p. 24.

MANAGEMENT

Accounting Computer Pitfalls
V. Genzlinger
May, p. 38.

Critical Path Method: It Paves the
Way to Smoother Management
A. Harary
April, p. 40.

Data Processing Centralization
D. Blumberg
July, p. 40.

EDP Equipment: Purchase, Trade-In,
or Sell? An Analysis
G. H. Heilborn
August, p. 44.

Global Economic Planning
W. B. Gibson
July, p. 18.

Growing Importance of Accounting
Computers, The
V. Genzlinger
April, p. 50.

Hardware Selection
V. Genzlinger
January, p. 27.

Information Management Center,
The
V. Genzlinger
February, p. 22. t

Management and the EDP
Installation
N. E. Magnis
March, p. 48.

Management by Exception Through
Information Processing
Techniques
B. W. Ziessow
October, p. 52.

Management in Real Time
S. C. Blumenthal
August, p. 18.

Management Problems an
Accounting Computer Can Solve
V. Genzlinger
July, p. 46.

New Source of Executive Talent—
DP Personnel, A
J. T. Simone
August, p. 5.

On Line Real Time vs. Time
Sharing
V. Genzlinger
March, p. 40.

Package Systems and the
Automobile Dealer
V. Genzlinger
August, p. 40.

Quantitative Break-Even Analysis
R. S. Sioma
January, p. 20.

Real Time Management Retrieval
System, A
P. G. Margaritis
July, p. 23.

When PERT is Mandatory
B. O. Szuprowicz
June, p. 38.

SUBJECTS

(Continued)

MAN-MACHINE RELATIONSHIP

Corrections that Lead to Corrections
B. Rothery
January, p. 36.

Do Present Information Services Serve the Engineer
J. Sayer
February, p. 24.

MEDICAL

Role of Computers in Research, The
H. H. Sun
June, p. 26.

MEMORIES

Random Storage
J. R. DeParis
January, p. 37.

Random Access
J. R. DeParis
February, p. 30.

PERIPHERALS

Automated Mailing System
J. R. DeParis
November, p. 38.

Automated Typing Systems
J. R. DeParis
July, p. 44.

Card Punching Still Prime as Computer Input
J. R. DeParis
May, p. 40.

Computer Peripherals—A Checklist
J. D. Fogarty
June, p. 50.

Comprehensive Look at Magnetic Tape Rehabilitation, A
E. P. Brandels
October, p. 28.

Desk Top Teleprinter
J. R. DeParis
October, p. 48.

Tele-Processing Terminals Offer User Wide Range of Applications Ability
H. M. Silveira
July, p. 36.

Touch-Tone
W. P. Davenport
October, p. 36.

PLANNING

Strategic Planning
D. Blumberg
February, p. 62.

PRINTOUT

Computer Forms Design and the Printing Press
E. Webster
December, p. 56.

Fastenings and Forms Runnability
E. Webster
July, p. 21

Forms: An Industry Snapshot
E. Webster
June, p. 28.

Getting the Maximum Use Out of Your Printout
E. Webster
February, p. 20.

Line Printing
E. Webster
April, p. 34.

Printout Tips and Trends
E. Webster
August, p. 34.

Replicate Your Printout
E. Webster
September, p. 52.

Second Generation Line Printer, The
E. Webster
November, p. 42.

Taming Terms Turmoil
E. Webster
May, p. 46.

PERSONNEL

Data Processors Today and Tomorrow
R. A. Kaimann
March, p. 28.

PROGRAMMING

Controls for a Complex Business System
A. J. Sullivan
December, p. 22.

IBM System 360, Prognosis for Programmers
L. R. Bushor
March, p. 58.
L. R. Bushor
March, p. 58.

Inside the Big "C"
L. O. Schmidt
December, p. 44.

Program Documentation
V. V. Pravikoff
October, p. 44.

Time-Tedium Cost-Factors in COBOL Programming
J. Cremeans
April, p. 24.

Towards a Theory of Program Design

Vocabulary Control in Automatic Indexing
A. Kreithen
February, p. 60.

PUBLISHING

Mechanical and Photomechanical Composition Techniques
A. Kreithen
June, p. 53.

Publishing and Computer Oriented Information Systems
A. Kreithen
May, p. 81.

SIMULATION

Computer Simulation
Data Processing Magazine Staff
October, p. 24.

Digital Computer Achieves Real Time Flight Simulation
R. M. Douglas
April, p. 46.

Using a Computer to Simulate a Computer
G. R. Trimble
October, p. 18.

SOCIETIES

Effect of IFIP on the International Information Processing Community, The
I. Auerbach
January, p. 16.

SOCIOLOGY

Computer Planning and Society
T. Victorisz
August, p. 15.

SOFTWARE

Honeywell Series 200 Mecca for EDP Programmers
L. R. Bushor
April, p. 54.

Software Trends
B. A. Galler
March, p. 56.

ASA Standards for Computers and Information Processing
P. B. Goodstat
October, p. 50.

STATE OF THE ART

State of the Art in Belgium
M. Linsman
May, p. 19.

State of the Art in Brazil
G. Herz
May, p. 21.

State of the Art in Germany
A. Walther
May, p. 21.

State of the Art in Great Britain
P. Wright
May, p. 23.

State of the Art in Ireland
B. Rothery
May, p. 25.

State of the Art in Israel
D. Chevion
May, p. 27.

State of the Art in Spain
J. G. Santesmases
May, p. 28.

State of the Art in Sweden
B. Langefors
May, p. 30.

State of the Art in Switzerland
A. P. Speiser
May, p. 32.

SYSTEMS

Advanced Shared File System Extends Capabilities of Caltech Computing Center
G. D. McCann, K. J. Hebert
C. B. Ray and S. H. Caine
September, p. 24.

Experimental System Provides Flexibility and Continuity
N. J. Mazzarese
May, p. 68.

Information Systems and Planning Process
D. F. Blumberg
May, p. 72.

Introducing the EAI 680
J. R. DeParis
September, p. 38.

Monsanto's "Conversational" Mode Computer Network Will Increase Engineers' Efficiency
D. J. Kaufman
August, p. 48.

Programmed Instruction . . . and the NCR Series 500
J. R. DeParis
May, p. 32.

Univac 1050, Late Arrival of the Solid State Generation
J. R. DeParis
April, p. 56.

SYSTEMS DESIGN

Completely Automatic Hybrid Computer, A
W. H. East
July, p. 30.

Controls for Data Processing
J. E. Holzer
August, p. 28.

Data Processing System Simulation, The
D. D. Rudie, M. I. Yauchah and E. J. Johnson
June, p. 65.

TIME SHARING

Time Sharing—A User's Perspective
N. E. Magnis
July, p. 26.

Time Sharing Seminar in Print
E. R. Cattaneo
September, p. 18.

Time Sharing—Some Comments and Predictions
D. Blumberg
September, p. 44.

Time Sharing—Some Problems, Potentialities, and Implications
S. G. Campbell
September, p. 30.

Worth Waiting For: The Multiple Access Computer
H. W. Robinson
September, p. 40.

VOCABULARY

Data Processing Vocabulary
January, p. 38.

Working Paper on A Vocabulary for Information Processing
February, p. 26.

Working Paper on A Vocabulary for Information Processing
March, p. 31.

WEATHER

Weather—Doing Something About It
F. G. Shuman
August, p. 38.

The First Two Years
R. Hillegeass
May, p. 44.
New Univac 9000 Series, The
R. Hillegeass
August, p. 52.
RCA Spectra 70—A Compatible
Competitor
B. Totaro
June, p. 54.

Surprising IBM 1130, The
F. H. Reagan
July, p. 46.
Will Mohawk Make Punched Cards
Obsolete?
F. H. Reagan
December, p. 46.

INFORMATION HANDLING

Automated Triangle, The
F. P. Knight
June, p. 36.
Collection of Information, The
B. Rothery
November, p. 62.
Computerized Geographic Coding
S. Dolleck and H. H. Fasteau
October, p. 40.
Evaluation of Information, The
B. Rothery
May, p. 58.
Generation of Information, The
B. Rothery
July, p. 36.
Information and Abstraction
B. Rothery
June, p. 34.
Information and the Auditor
B. Rothery
August, p. 59.
Information Processing; Fact,
Fiction, and Future
N. Statland
February, p. 18.
Information Specialist, The
B. Rothery
October, p. 44.
Noise in the Information System
B. Rothery
February, p. 40.
Repositories of Information, The
B. Rothery
March, p. 44.
Shapes of Information, The
B. Rothery
April, p. 65.
Theory in the World of Reality
B. Rothery
December, p. 36.

LAW

Computer and the Law, The
S.P. Sims
July, p. 20

MANAGEMENT

Executive's Primer on Simulation
I. M. Kay
October, p. 52.
Facilities Approach to Systems
Conversion, The
E. J. Helman
October, p. 36.
Getting Across to Management
R. G. Glaser
April, p. 54.
Installation Report
Data Processing Magazine Staff
December, p. 58.
It Takes People Who Like People
to Manage People
Data Processing Magazine Staff
May, p. 41.
Management by Exception
Hierarchically
R. A. Kaimann
July, p. 40.
Replacement Policy Based on
Equipment Age
J. E. Parsons
February, p. 24.
Ten Commandments for A Data
Processing Systems Staff
T. J. McGordon
June, p. 72.
Used Computer Market, The
L. Weissman
December, p. 30.
Using Computers for Parts Control
J. A. Burgess
May, p. 54.
Work Sampling in the Computer
Room
R. W. Fenske
May, p. 22.
PERIPHERALS
Merits of Mark Reading
J. R. DeParis
January, p. 38.
On Line or Off Line . . .
A Good-Performing Chain Printer
Data Processing Magazine Staff
January, p. 25.
Optical Character Recognition
Today
J. Rabinow
January, p. 18.
PRINTOUT
After Bond Paper—What?
E. Webster
April, p. 68.
Carbonless Fan-Fold Computer
Forms
Data Processing Magazine Staff
June, p. 68.
Feeding Features for Automatic
Typewriters
E. Webster
December, p. 32.
Hardware for Forms Handling
E. Webster
June, p. 44.
New Twists in Printout
E. Webster
March, p. 46.
Nonimpact Printout
E. Webster
July, p. 32.
Paper Primer for Computer Forms
Users
E. Webster
October, p. 46.
Printout in Europe
E. Webster
August, p. 60.

What to Watch in Forms Design
E. Webster
May, p. 60.

Why Use Custom Forms?
Why Use Stock?
E. Webster
February, p. 32.

PROGRAMMING

Entry to the File
R. A. Kaimann
December, p. 18.
Logic Charting the Total System
J. Koudry
January, p. 26.
Over 1000 Systems Men Evaluate
COBOL
A. J. Borenstine
August, p. 24.
Predicting the Costs of Computer
Programs
W. A. Delaney
October, p. 32.
Recompilation
R. Silverstone
September, p. 26.
Towards A Clearer COBOL
F. A. Morris
May, p. 57.

SIMULATION

Executive's Primer on Simulation,
An,
I. M. Kay
October, p. 52.

SOFTWARE

Contracting for Software
R. H. Hill
March, p. 24.
Over 1000 Systems Men Evaluate
COBOL
A. J. Borenstine
August, p. 24.
Time Sharing and Software
J. R. Ziegler
September, p. 38.
Towards A Clearer COBOL
F. A. Morris
May, p. 57.

SURVEYS

Status of Automatic Data
Processing in Los Angeles and
Orange Counties
K. L. Kraemer and
P. M. Whisenand
June, p. 28.

SYSTEMS DESIGN

Picking the Best Design With
Flowcharts
E. I. Sacks
December, p. 22.
Viewpoint in Systems Design, A
B. Rothery
September, p. 54.

TIME SHARING

Integration of Multiple On-Line
User Stations
J. R. Ziegler
August, p. 48.
